

6th October 2026

Dear Parents and Carers

Thank you to everyone who took the time to complete our parent survey last year. We greatly value your feedback, as it helps us celebrate what is working well and identify areas where we can continue to improve our provision for children and families.

We were pleased to see many positive responses across the survey, particularly regarding communication. The highest-rated area was **how easy it is to contact the school when needed**, with **88% of parents responding positively**. Parents also responded very positively to **how easy school reports are to understand**, with **86% positive responses**. Overall, communication was the strongest-rated section of the survey. These findings are encouraging and reflect our ongoing commitment to keeping families informed and supported.

The survey also highlighted areas where we can continue to develop our practice. The question "How often do you see that your feedback to the school has an impact?" received a **51% positive response rate**, suggesting that we need to do more to communicate how parental feedback influences decisions and improvements within the school. Parents also expressed a range of views about our approach to homework, with **61% positive responses**. Feedback included requests for both more structured homework and, conversely, concerns about workload, demonstrating the variety of views held across our parent community.

A number of parents also shared comments about parental engagement, communication around progress and assessment, and support for children experiencing friendship difficulties. We appreciate these comments and will use them, alongside the wider survey results, to help inform our ongoing school improvement work.

As a result of your survey feedback, we will be committed to:

- Improving communication about how parent feedback informs school decisions.
- Reviewing our approach to homework to ensure it supports children's learning effectively.
- Continuing to strengthen opportunities for parental engagement and involvement.
- Maintaining open communication between home and school regarding children's progress and wellbeing.

Once again, thank you for your continued support of our school. Working together helps us provide the best possible experience for all our children.

Best wishes

Guy Perkins
